Contents of Volume 34

No. 1. JANUARY 1954

Physiological Mechanisms in Development	*Nelson T. Spratt, Jr.*	1
Antibiotics in Animal Nutrition	*E. L. R. Stokstad*	25
Current Concepts of the Action of Insulin	*William C. Stadie*	52
Saltatory Conduction in Nerve	*Robert Stämpfli*	101
Growth of the Hair	*Herman B. Chase*	113
Experimental Immersion Foot. Review of the Physiopathology	*Hugh Montgomery*	127
Bioassay of Steroid Hormones	*Ralph I. Dorfman*	158

No. 2. APRIL 1954

Chemoreflexes From the Heart and Lungs	*Geoffrey S. Dawes and Julius H. Comroe, Jr.*	167
Chemical Composition of Sweat	*Sid Robinson and Aline H. Robinson*	202
Role of Wheat and Wheat Products in Human Nutrition	*D. M. Hegsted, Martha F. Trulson and Fredrick J. Stare*	221
Determinants of the Critical Flicker-Fusion Threshold	*Carney Landis*	259
Sodium Excretion by the Mammalian Kidney	*Ewald E. Selkurt*	287
Water and Electrolyte Metabolism	*J. F. Manery*	334

No. 3. JULY 1954

Physiological Significance of Lymph Drainage of Serous Cavities and Lungs	*F. C. Courtice and W. J. Simmonds*	419
The Work of Breathing	*Arthur B. Otis*	449
Genesis of the Adrenocortical Secretion	*Oscar Hechter and Gregory Pincus*	459
Neural Mechanisms of Audition	*Robert Galambos*	497
Role of Chemotaxis in Inflammation	*H. Harris*	529
Serotonin (5-Hydroxytryptamine)	*Irvine H. Page*	563
Lipoproteins, Coronary Heart Disease, and Atherosclerosis	*John W. Gofman, Frank Glazier, Arthur Tamplin, Beverly Strisower and Oliver De Lalla*	589
Sympathetic Vasodilator Outflow	*Börje Uvnäs*	608

No. 4. OCTOBER 1954

Relation of Structure to Function of Tissues of the Wall of Blood Vessels	*Alan C. Burton*	619
Acid Formation and Acidity Control in the Stomach	*Erich Heinz and K. J. Öbrink*	643
Biophysics of Junctional Transmission	*Paul Fatt*	674

SYMPOSIUM ON CHEMISTRY OF PROTHROMBIN AND FIBRINOGEN

INTRODUCTION: PROTHROMBIN AND FIBRINOGEN RELATED TO BLOOD CLOTTING MECHANISMS *Walter H. Seegers* 711
PURIFICATION OF FIBRINOGEN, PROTHROMBIN AND THROMBIN *Arnold G. Ware and Gerard F. Lanchantin* 714
TRANSFORMATION OF PROTHROMBIN INTO THROMBIN *Francois Lamy and David F. Waugh* 722
CHEMISTRY OF PROTHROMBIN AND SOME OF ITS REACTIONS *K. Laki* 730
THROMBIN AS A PROTEOLYTIC ENZYME *Sol Sherry, Walter Troll and Helen Glueck* 736
INTERACTION OF THROMBIN AND FIBRINOGEN *L. Lorand* 742
POLYMERIZATION OF FIBRINOGEN *John D. Ferry* 753
